gord for what is the best thing to be stid President A. A. Murphree of the University of Florida in an address before a recent meeting of the agricultural conference. "These young men," continued President Murphree, "are afraid they will become con-scripts, and their patriotism doubted. Such is not the case. When the history of the world war is written, there will be no differentiation between the volunteer and the man con-scripted."

But President Murphree was not steking to discourage the young men who should enlist in the Nation's rmed forces. He was only trying a show that it is just as patriotic or a young man to register for serand then wait for his country to ell him where to serve as it is to lesert some needful occupation and trip the Nation of men educated in

that line of work.

It is not the highest type of patriotism for farmers and men work-ing ou farms to rush into enlistment. These men are needed right where they are to grow and harvest the food that is to supply our armed forces and those of our allies in Europe. The Government recognizes that fact and it is likely that they will be the last ones called to bear arms. The thing to do is to remain at your appointed task and await the

call to go into other work.

When democracy goes to war democracy fights that war and pays for it. That's what the Liberty bonds are for. Will you buy your bond today?

The Kaiser is waiting to hear from the sale of United States Liberty Bonds. Make your share of that loud noise. Buy today.

List of Vegetables Which May Yet be Planted.

The Extension Work in Agriculture and Home Economics, U. S. Department of Agriculture and the University of Florida Agricultural Extension Division are co-operating in a campaign for home gardens, and are well organized in this state, each county having a local organization to push the work.

The State organization has issued the following bulletin of instructions on what to plant, together with information as to how to plant profitably:

Sweet Potatoes-Plant on well drained land and on beds 8 inches high. If the land needs drainage, the beds should be 12 inches high. The top of the bed should be round-

Sixth Federal Bank District Has High Hopes On Selling United States Liberty Bonds

President Wilson, the cabinet and congress are keenly awaiting news of the subscription for Liberty bonds, which the government has issued to help in the war.

The sale has been arranged through the Federal Reserve Banks and according to their districts. Our district, the sixth, includes Georgia, Florida, Alabama and approximately half of Tennessee, Mississippi and Louisi ana. Few sections of the United States have such varied resources. From the orange groves of Florida to are 60 per cent greater than those of the steel mills of Alabama, and from any other country on earth. the cotton fields of Georgia to the wealth exceeds that even of the entire rice plantations of Louisiana and the British Empire. stock raising section of Tennessee al most every kind of crop and manu you are buying the safest security ever facturing industry can be found. It will be strange indeed if the people of wonderful natural resources than those this prosperous section are no of any other nation under the sun. among the largest purchasers of Lib erty bonds. The government will be very great

ly disappointed unless this great sec tion ranks at least third in the volume of its purchases of Liberty bonds. Bankers of Atlanta, Birmingham, New Orleans, Macon, Chattanooga and Jacksonville as well as in every small town in the district, agree that when the total figures are announced that the Sixth District will be found to have done its full part.

But every man, woman and child must participate. Bonds sell as low as \$50 and as high as \$10,000.

Make the war loan the chief subject of discussion in your home. Make sure that each member of your family sees his or her duty and opportunity Make up your mind today.

let it be said that you withheld your help in time of your country's needs.

Buying Liberty Bonds Is Not An Act of Charity

When you buy United States Lib erty War Bonds you are not giving the away anything. Your act of purchasing is not an act of charity. Whatever money you have you possess because you have lived and worked in the glorious United States. Today the United States needs ready money to help win the war, to provide food, clothing and transportation for our soldier boys. So our government says to you; "Loan us \$50 or \$100, or what ever amount you like, and we will pay you 345 per cent annual interest (payments every June 15 and Dec. 15), and in addition to that we will pay you back the entire amount you lent us, Also, if the interest rate on our bonds gees up, we will advance your interest to the highest rate."

"That's a fair, square proposition. You can't lose. The United States helped you get what you have, and it is both patriotism and good business on your part to loan the government some of your money now, Order United States Liberty Bonds from your banker or your broker. Do it

U. S. Liberty Bond Button Is Your Badge of Honor

Every man, woman and child who buys a Liberty bond will be given a government button to wear, This badge of honor will be a sign to the world that its wearer believes in the United States, in freedom, in manhood, in righteogeness, and has shown his faith by his works. Many of us are not able to fight, but there is hardly any one who cannot buy at least a \$50 Liberty bond. Remember, too, that this \$50 is not a gift; it is a safe and sound investment, free from taxation, paying interest and repaying the principal in full. You can't lose If you do not buy, both you and your country will thereby be losers. Don't be a millstone around your country's neck Order at least one Liberty bond today.
